

# SchoolMaster

## Fee Billing and Pupil Records for Independent Schools

SchoolMaster is a highly functional School Fee Billing and Pupil Records system for Independent Schools which has full integration with Sage 50 Accounts.

Sage accounting software is in use across the UK in all kinds of different environments and is well known for its user-friendly and intuitive interface. However, the very specialised accounting requirements of Independent Schools have meant that they have been unable to take full advantage of the products on offer.

Now SchoolMaster provides comprehensive fee billing and links dynamically with Sage 50 Accounts to give Independent Schools a fully integrated accounting and administration system.

The purpose of SchoolMaster is primarily to:

- Store pupil details
- Generate and print invoices with minimum effort Post invoices to Sage without any re-keying
- Provide valuable financial information
- Monitor as many pupils and schools as required

## Features
